The PIANO-KEYBOARD CLUB by Musical Minds

Kids will have the opportunity to learn to play their favorite songs and music on electric keyboards. Radio hits, movie and television themes are made so easy, that our participants will be playing them after the very first class! The club is a combination of keyboard piano lessons and a music learning workshop, which uses a clever visual method to teach the basics of music reading and piano playing. We've developed lots of learning games and activities designed to teach kids basic music reading skills and playing techniques, in ways that are fun, engaging, and stimulating. We want our students to stay motivated and continue to *want* to learn to play music, whether they like **Bruno Mars** or **Beethoven**. We have all the music they want. We have music from **Stars Wars, Jurassic World, Moana, Coco** and lots more. Each participant has his/her own keyboard supplied during the class, along with headphones, and books and other materials are included.

This session is for both brand-new students AND returning and advanced students.

SPEAK EASY 1

Public speaking has been rated the worst fear in adults. Why not conquer that fear as a child when inhibitions are low and learning new skills comes naturally? Our children will be required to make presentations and command an audience as soon as junior high. As they go through higher levels of education presentation skills become the key to success. Through engaging interactive games and fun activities, students will learn to get past their fear, embrace their audience, write and deliver an effective speech, and improvise. Class will culminate with a speech presentation for family and friends. The best part about this class is that students learn these valuable skills in a fun and age-appropriate way. It's FUN, we promise!

KARATE WITH WA SHITO RYU ACADEMY

Japanese Shito Ryu Karate is an ancient form of karate that was the primary art used by the military in feudal era Japan. It was also taught to the civilian population in case the country was invaded by enemies. Every able-bodied person was required to learn Shito Ryu as a means of self-defense for the individual as well as the country. Karate is an art that must be practiced daily in order to master it.

Children are exposed to activities that help them to focus, acquire discipline, think healthy, have fun, and live a goal-oriented life. We are a part of a larger body of schools nationally and inter-nationally. Our national organization is located in Osaka, Japan. All instructors must meet rigid curriculum standards in order to teach. Annual recertification is required. Our international World Championship will be hosted by Osaka, Japan in 2020.
