SCRATCH Code Club:
Intro to Coding Games and Animation

Cascade Ridge Elementary

In TechVenture Kids' **Scratch Code Club**, kids explore how to design and program their own computer games and animations.

Working in **MIT's SCRATCH,** a visual *drag 'n drop* programming environment, students engage in fun coding projects while learning the basics of computer programming.

Instruction and projects are provided for **all levels**: beginner, intermediate and advanced!

Student min: 10, max: 20

STEM Enrichment

1. Programming
2. Math concepts
3. Problem Solving
4. Storyboarding
5. Collaboration
6. Creativity
7. Presentation
