TechVenture Kids
Computer Coding Clubs & Camps

Let's Code Minecraft Mods!

NEW SESSION: Cascade Ridge Elementary

In TechVenture Kids' **LEARN TO MOD Code Club**, your kids explore how to change a Minecraft world -- how to mod it!

Using ThoughtSTEM's online environment, **Learn to Mod**, students practice fundamental coding concepts while learning how to code basic Mods and test them in a Minecraft simulated world.

In this course, students engage in individual exercises, collaborative projects and classroom discussions. This coding club is ideal for students who love to play Minecraft and go a step beyond to begin understanding the programmer's perspective. We accept beginner-intermediate level coders. **Student min: 8, max: 16. We provide the laptops.**

STEM Enrichment

1. Programming
2. Math concepts
3. Problem Solving
4. Storyboarding
5. Collaboration
6. Creativity
7. Presentation

Who: Grades 3-5
When: Fridays, 3:00p – 4:30p
          Feb 5 – Apr 1 (8 weeks)
          (No class Feb 19)
Where: Cascade Ridge Elementary, Room 141
Fee: $249/student
